In humankind's millions of years on earth, many types of energy resources have been utilized. However, in the last ninety years, petroleum has become by far the most important. Accounting for over 50 percent of all energy consumed, it is so essential that, without petroleum, we could be faced with economic disaster.

Of course, the earth's supply of petroleum will not last forever, and in fact, it will disappear sooner than most people believe. At the current rate of consumption, the world has proven oil reserves may be exhausted within forty or fifty years

STATEMENTS	T/F
29. People have utilized different kinds of energy resources.	T
30. Petroleum has become the most important because it has millions of years on earth.	F
31. The earth's supply of petroleum is limited.	T
